RE: Letter of Support for Del Norte Rod and Gun Club – Centralized Shooting Range.

Dear Sir or Madame,

The Del Norte County Board of Supervisors is pleased to lend its support to the Del Norte Rod and Gun Club in its pursuit of funding from for the improvement of the facility near Smith River, California. The Del Norte Rod and Gun Club is an integral recreational facility that provides sporting activities to a number of residents and visitors to Del Norte County throughout the year. Del Norte County has been in need of a formal handgun and rifle range for many years. There is no local alternative to informal shooting on Federal land, and the construction of a centralized range would alleviate the need to travel far and wide to find a safe and suitable shooting area for those that choose to utilize a facility. The Del Norte Rod and Gun Club currently offers Hunters Safety courses, hosts the Jed Smith Mountain Men annually, and provides a safe training and educational environment in addition to its shotgun related activities.

Del Norte County has a significant population of gun owners and enthusiasts who are in need of a facility that will allow the use of firearms in a safe manner as well as allow for the continued improvement of gun safety and skill. The Del Norte Rod and Gun Club has a history of providing a quality recreational environment that is much needed in our County.

Please consider this letter a demonstration of the Board's complete support.

Sincerely,

Gerry Hemmingsen, Chair  
Board of Supervisors
